

## Full Stack Developer

Full stack developer with 3 years of experience in building and deploying scalable web applications with Angular and NodeJS. Proven expertise in developing production-ready projects from scratch, with a strong focus on creating responsive, user-centric interfaces. Seeking a frontend developer position to contribute my skills and grow professionally by delivering engaging and efficient user experiences.

## Professional Experience

### Full Stack Developer, Israeli Navy (2021 – 2023)

- Developed Angular dashboards that transformed complex data into actionable insights, increasing user engagement by 700% and enabling better decision-making.
- Designed and developed custom frontend solutions tailored to meet clients' specific needs.
- Utilized SQL to design and build custom data tables, enhancing data management and integration.
- Collaborated in an Agile/Scrum environment, meeting tight deadlines while contributing to project milestones and fostering efficient teamwork.

### Data Analyst, Israeli Navy (2020 – 2021)

- The first data analyst in my team and in the Navy, where I conducted the development of dashboards to enable data driven decision making for the whole department.
- Introduced and implemented a new BI program to develop reports more efficiently and get maximum value while doing less, which cut down on unnecessary work by 20%.
- Contributed to the optimization of existing reports.
- Analyzed specific researches for senior managers.
- Collaborated with data scientists and data engineers.

## Courses & Certifications

- **Data Analyst, Mamram, J6 & Cyber Defense Directorate, IDF** (October 2020 - February 2021)
- Database Design, J6 & Cyber Defense Directorate, IDF (April 2022)
- Docker for the Absolute Beginner, Udemy (June 2024)
- CSS - The Complete Guide 2024, Udemy (August 2024)
- JavaScript Algorithms and Data Structures Masterclass, Udemy (September 2024)

## Skills

Angular, NodeJS, TypeScript, JavaScript, HTML & CSS, SQL, Business Intelligence, Agile workflow, Teamwork, Python, Communication, Problem solving, Strong work ethic, Collaboration skills.
